

Tutor Meta Game Instructions

There needs to be a couple of tutors for each activity keeping an eye on things and being ready when teams are done with the activity.

Once a team is done with an activity, grab 2 images, put one in each hand behind your back and get them to choose which one they want. You can use which images you pick to help keep the groups from getting too far ahead or left behind.

If they have already gotten a pipe from this activity, pick 2 coins

If they are falling behind, pick 2 coins

If they are going too fast, pick 2 pipes

Otherwise pick 1 coin and 1 pipe

Note: if a team has already gotten 3 coins are are trying to get more pipes, always pick 1 coin and 1 pipe
